

Fish to Scale

Using the information below, create a bar graph that compares the sizes of different fish. Then practice drawing the fish to scale. You may want to color the fish using *A Place for Fish* as a guide.

Hammerhead shark: 144 inches

Northern pike: 25 inches

Yellow tang: 7 inches

Smalltooth sawfish: 216 inches

Smallmouth bass: 17 inches

Spotted trunkfish: 4 inches
